EXPERIENCE

Microsoft

PM Intern – Xbox Gaming Ecosystems Organization

June 2022 – Sept 2022

- Strategized and executed a filter and sort by feature refresh for the Xbox storefronts
- Created a strategy to increase the visibility and discoverability of self-published games on the Xbox storefronts
- Owned the browse all games feature for Xbox.com

Explore Intern – Yammer Security, Privacy, and Compliance Team

June 2021 – Sept 2021

- Experience the software engineering and project management roles through the 12-week summer internship program
- Gained hands-on experience with various tools and programming languages in the field of software development
- Devised and produced a web-based security trivia game to gamify the experience of security training for all Yammer engineers

Web Development

My Portfolio Website

- An aesthetically pleasing site—designed completely by me—that allows a viewer to get to know me and my work

Grades of Green

- Integrated a revamped interface, a database, and dynamic display of team data to the WordPress site to facilitate user engagement

Game Development

Wayfarer

- A deckbuilding puzzle game meets a wholesome story about friendship! 395 browser plays and 14 downloads
- Utilized Unity to develop the visual novel interface as a game dev with ACM Studio's 2 quarter long student led game development project

Bubble Tea in Quarantine

- A visual novel about tea, boba, and coronavirus with a twist—you fight coronavirus itself! 100+ downloads
- Implemented with Pokémon-esque fight mechanics and coded in Python
